

Tentative Reopening Plans

Dear Railroader Nation,

It's been a long time coming but we can begin to see the light at the end of the tunnel. Today I am excited to share that we have been in ongoing discussions with our contractors and tentatively believe we will have the ability to return our 7th and 8th grade cohorts around March 1st. The plan is to bring back all Middle School students at this time.

Not far behind, we will also have the opportunity to fill the hallways with our 9th -12th grades as well. I am hoping for a March 15th date for these students.

Please understand that these dates are somewhat tentative, but we are nearing the timeframe in which we should have access to our facilities for faculty, staff, and students.

While there is still much work to be completed logistically to make this happen, I wanted to let you know that these dates are our timeline goals. I will continue to work with the faculty/staff, building and grounds, and the transportation departments to address the necessary issues to complete, in advance, of our impending return. As I know more, I will communicate this information out. I will be in touch with you to help facilitate your planning for this very exciting next chapter at the Whitehall Jr./Sr. High!

Go Railroaders,

Ethan Burgess
Jr./Sr. High Principal
